

## Module: m/01/021

*'Running a timeware® manual backup...'*

Before running a timeware® manual backup, you must ensure that the backup destination has been set, (see module m/01/035).

1. Click on the Advanced menu and select Backup Database...

2. Next, confirm the backup location on the timeware® server.

3. Once the backup is complete, press the <OK> button.
